

LES COTEAUX DU SOLEIL

The region

The region includes the communes of Ardon, Conthey and Vétroz. It is located in the heart of the Valais, close to the city of Sion, the cantonal capital, between the Rhone and the Diablerets glacier. It offers numerous activities and its landscape is grandiose; there are areas where the nature is still in its purest form, for example in the Derborence valley.

Its diversity makes it a very attractive region and it is definitely not to be missed. Its geographical location allows people to practice many activities in both summer and winter. Our region also has an exceptional climate, it is a place of **beautiful vineyards and wonderful wine** (the biggest in the Valais), **has local products of high quality, offers all the pleasures of the mountain, Derborence** and spas, golf, cultural tours, unique attractions and, most of all, friendly hosts.

Wonderful discoveries can be made which vary according to the seasons.

We wish you a very warm welcome in our region.
